

## Distribution Network - Rest of Greece

In all municipalities in the rest of Greece a 100% discount on connection fees will be applied, given that in the reference year (31.12.2022) the penetration rate in municipalities with an active low pressure network was below 25%.

### Connection fees for new delivery points - 2024

<b>a) End Customers supplied via a network extension <u>under</u> co-financed projects.</b>
